Cost Modeling Summary

Before Facility Evaluations

School	Elementary Schools	Middle School(s)	High School	30 Year Savings**	% savings
Option 0	Fayston (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ -**	**0%**
w/ no bond	Moretown (PK-6)				
(status quo)	Waitsfield (PK-6)				
	Warren (PK-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option 0	same as above	same as above	same as above	**$ (472,000,000)**	**-11.6%**
w/ bond					
(status quo)					
Option B	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (521,000,000)**	**-12.8%**
	Warren (K-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option D1	Waitsfield (PK-5)	Harwood (6-8)	Harwood (9-12)	**$ (539,000,000)**	**-13.2%**
	Warren (K-5)				
	Brookside (K-5)	Crossett Brook (6-8)			
Option G	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (594,500,000)**	**-14.6%**
	Warren (K-6)				
	Crossett Brook (PK-6)				
Option G1	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (656,300,000)**	**-16.1%**
	Crossett Brook (PK-6)				
Option K	Waitsfield (PK-5)	Harwood (6-8)	Harwood (9-12)	**$ (506,100,000)**	**-12.4%**
	Warren (K-5)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option K2*	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (475,800,000)**	**-11.7%**
	Warren (K-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			

*similar to Option B except different proportions of students sent to remaining schools
**30-year cost difference relative to Option 0 (Status Quo - no bond).

Cost Modeling Summary

After Facility Evaluations

School	Elementary Schools	Middle School(s)	High School	30 Year Savings**	% savings
Option 0	Fayston (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ -**	**0%**
w/ no bond	Moretown (PK-6)				
(status quo)	Waitsfield (PK-6)				
	Warren (PK-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option 0	same as above	same as above	same as above	**$ (673,808,115)**	**-16.5%**
w/ bond					
(status quo)					
Option B	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (684,906,850)**	**-16.8%**
	Warren (K-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option D1	Waitsfield (PK-5)	Harwood (6-8)	Harwood (9-12)	**$ (702,867,155)**	**-17.2%**
	Warren (K-5)				
	Brookside (K-5)	Crossett Brook (6-8)			
Option G	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (708,854,257)**	**-17.4%**
	Warren (K-6)				
	Crossett Brook (PK-6)				
Option G1	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (773,696,700)**	**-19.0%**
	Crossett Brook (PK-6)				
Option K	Waitsfield (PK-5)	Harwood (6-8)	Harwood (9-12)	**$ (696,159,029)**	**-17.1%**
	Warren (K-5)				
	Brookside (PK-4)	Crossett Brook (5-8)			
Option K2*	Waitsfield (PK-6)	Harwood (7-8)	Harwood (9-12)	**$ (639,712,499)**	**-15.7%**
	Warren (K-6)				
	Brookside (PK-4)	Crossett Brook (5-8)			

*similar to Option B except different proportions of students sent to remaining schools
**30-year cost difference relative to Option 0 (Status Quo - no bond).

Observations

- **The savings are greater than in the original calculation**. This is because the actual cost of deferred maintenance was lower than predicted.

- **The savings for each option, including the status quo (with bond), are tightly grouped.** This is because the existing schools are currently close to capacity and each option require additions to absorb more students. For this reason, there was not significant savings compared to the status quo.

- **Educational Advantages.** Despite the lack of significant savings, there may be educational or other benefits in a reconfiguration option.

- **Future Funding.** The status quo and the reconfiguration options may or may not be consistent with future state policy for school construction aid.

- **Investment.** Despite the unknowns posed by Act 73, updating the district's facilities is a sound investment because the cost modeling demonstrates that district reconfiguration does not result in significant savings.

Next Steps

- **Building Strategies**
  - Identify critical projects that will keep the buildings open, heated and dry.
  - Decide whether climate control is an integral part of this approach.
  - Identify important projects that allow each facility to function adequately.
  - Discuss whether to upgrade whole areas of a building or entire systems or a combination of the two.

- **Develop Capital Investment Plan**
  - Determine which projects can be budgeted for and which must be bonded for.
  - Determine when each project in the CIP should completed.
  - Discuss ways to boost the capital reserve budget to meet these needs if necessary.

- **Bonding**
  - Discuss strategies for bonding. For example, should their be 1 large bond vs several smaller bonds over time?
  - Discuss whether bonds should, as a rule, try to include work at all schools or just targeted ones.
  - Confer with other school districts (Colchester, CVSD and BSD?) re their approach and experience.
